**Large Aperture Bin...
ensures waste hits the target!**

Combo Delta™

Large Aperture Bin...
ensures waste hits the target!

Ideal for...

...Fast Food Areas

...Cinemas

...Visitor Attractions

...Motorway Service Stations

Durable Construction

Manufactured in tough Durapol®* material, offering exceptional strength and durability.

Target Graphics

Moulded directly into the rear of the aperture, the target encourages use and acts as a visual aid for the user.

Large Capacity

The 140 litre capacity copes easily with high volumes of litter, eliminating the need for frequent emptying.

Easy to Empty

Sack retention system allows quick and easy emptying. Please see back page for details.

Large Funnel Aperture

The ergonomically designed wide funnel aperture provides a large area to aim for and helps guide litter into the bin.

Aperture Hood

Offers weather protection and helps to funnel litter directly into the unit. The sloped design of the hood helps to prevent littering on the top of the bin.

Front Lip

Helps to ensure any rebound waste enters the sack successfully and prevents spillage between the sack and the bin.

Aperture Height

For ease of use, the unit is specially designed to vehicle window height which helps encourage correct disposal of litter.

Easy-clean Hygienic Design

Smooth exterior and interior contours ensure there are no dirt traps, allowing for easy cleaning and disinfecting.

Recessed Graphics

Sticker sets are available as an optional extra for the recessed areas above and to the side of the aperture. A 'Thank You' graphic and a waste graphic with an arrow can be applied to help maximise visibility.

Optional Extras

- Sticker sets for recessed graphic areas on the aperture hood. (Available in Front, Side, and Front and Side sets).
- External Concrete Ballast.
- Internal Sand Ballast.

Personalisation

The front face of the bin body and the recessed graphic areas on the aperture hood can be personalised with your logo or message. To see how attractive your organisation's logo or message would look on Combo Delta™ bin, we can provide you with a computer illustration totally free of charge.

For more information please contact our Sales Office on 01253 600410.

Quick and easy to empty

1. Lift both side catches to open the bin door.

2. Open door, which then rests at 50° angle.

3. Remove sack for disposal.

4. Position new sack into sack retention system.

5. Push door to lock in place.

Colours

Combo Delta™ is available in any single colour or two colour combination of the colours shown.

(Other colours and combinations may be available subject to minimum order quantity.)

Specifications

Capacity: 140 litres
 Height: 1550mm
 Aperture Height: 530mm
 Width: 470mm
 Weight: 21kg

Materials

Bin body and door: Durapol®
 Sack retention system: Stainless Steel

Fixing Options
