

# Origin<sup>TM</sup> Infinity<sup>∞</sup>

Endless Recycling Options

Founded in Blackpool UK in 1959, over the last 65 years we have grown into a successful worldwide brand.

Distributed in **100+**  
countries

**260+** staff in UK,  
France & USA

**B2B** Dealing with  
Government  
funded sectors and  
with private and  
public companies  
worldwide.

## Quality by Design

Our mission is to design, manufacture and supply innovative market-leading products that enable our customers to contribute towards a cleaner, safer and more sustainable environment.

## The Environment is at our Core

We are passionate about our environment and are committed to continuously improving our environmental performance. Our goal is to drive lasting change to improve all of our futures, not only by improving our own processes but by providing our customers with the products to enable them to improve theirs.

# Introducing Origin™ Infinity<sup>∞</sup> Recycling Station

One Unit, Endless Options

## Laying the Groundwork

- Multiple waste streams
- Wide range of capacities
- All-in-one unit
- Sustainable & recyclable materials
- 16 standard configurations available
- Fully customisable

## Key Features

- Clear waste stream recognition
- Easy to empty
- Modern design
- High percentage of recycled material content
- Sack retention and liner options

# Have it Your Way

- **Customise Your own Recycling Station:** Choose from a list of standard options.
- **Request a Bespoke Model:** How creative can you get? If you have a unique vision for your recycling scheme, we can make it a reality.

# The Range at a Glance

16 standard configurations are available.

# Build your own recycling unit from our standard options.

## 1 Choose your waste streams

1 to 6 waste streams in 1 unit

5 aperture shapes

10 aperture colour options

Arrange in any order you like

2

## Select the waste stream capacity

**110-litre compartments** - for 1 to 4 waste streams

Enables the recycling station to be  
easily moved

# Get Creative!

# Towards Infinity

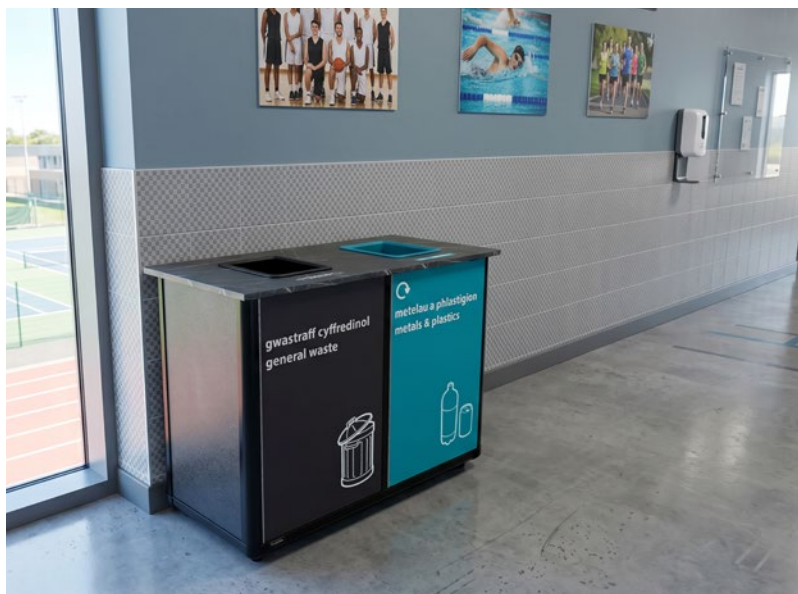

If you have a more specific look in mind, we can design something to suit your exact requirements.

Feel free to take some inspiration from our examples!

Co-ordinate your doors and signage with your interior

Co-ordinate your doors with your interior

Incorporate colourful signage for recycling streams

# Sustainable, High-Performance Materials

Origin Infinity is constructed from high-quality, sustainable materials.

**Frame:** Vandalex aluminium with Duratec corner connectors.

**Top:** EGGER MFC board.

**Sides and Doors:** Ecoboard or EGGER MFC board.

**Rear and Base:** Ecoboard

**Apertures:** Durapol

\*The black and white colours feature an Armortec coating.

## EGGER MFC Board

EGGER MFC Board is a scratch-, moisture- and impact-resistant decorative surface that is easy to maintain and clean. It is more affordable than solid wood and available in over 100 colours and wood finishes. MFC is manufactured from 40% recycled wood 40% sawmill offcuts, and it is recyclable at the end of its life.

## Vandalex™ & Armortec™ Coating

Vandalex material is an aluminium alloy engineered to produce a high modulus of elasticity, which offers increased impact absorption properties. Its anodised or Armortec-coated finish will not rust, is easy to clean, never needs painting and is recyclable at the end of its service life.

Armortec corrosion-resistant coating is specially formulated to extend the life of Glasdon metal products and components.

## Durapol®

Durapol material is a polymer formulated to withstand extreme temperatures and is impact tested in our Quality Assurance Laboratory. Durapol will not chip or rust, is easy to clean, never needs painting and is recyclable at the end of its service life.

## Ecoboard™

Ecoboard material is made from 99% recycled polymer, including post-consumer plastic waste to create a very robust and strong panel. Ecoboard will not chip or rust, is easy to clean and never needs painting.

## Duratec™

Duratec combines an attractive appearance with a blend of toughness, rigidity and dimensional stability.
